

Phone Records show Takeover Group had more than 250 calls with President of AON and FBI, presenting a clear picture of collaboration in destroying NNIB

Samples of phone logs showing contacts between Berry, Walsh, AON CEO Pat Ryan, and AON President O'Halleran before and during Segal's arrest. Multiple contacts months prior to takeover group leaving employ of NNIB.

- Segal was told by high profile client that Ryan called for business after arrest and when client stated he did not like what he heard about the ex-employees, Ryan basically stated he did not know them
- Three business days after Segal's arrest, the arrest complaint was faxed to another large client, Jupiter Corporation, and related hacked email informing NNIB's lawyers as such, a subsequent Walsh letter to client attempting to explain exculpatory position.
