Subject 2000 "credit write offs"  
:

---

Hello Mr. Segal:

My name is Shirley A. McCurty, I am sending you this email in response to an article that was given. I know you remember me because you never forget a name, I worked for Jim Meyer and Jerry Dudek. Well to get to the point I am tired of everyone blaming you for things that I know you had no knowledge of, how I know because I was there when decisions were being made in 2000 to write-off the alleged 1.2 million. And this did not come from you, when money was being used in RFTA account the juggling of numbers as they say. I told you Mr. Segal that if you did not get to the bottom of things it would get ugly, and it did. Lie's have been told on you, and everyone of those people that you made very rich are the one's that lied. I gave Debra Gerber a email in regards to the large write off's I named everyone that was in that room and you were not one of them. The decision was made to write off at a much lower level then you or Tom. Theresa the lady that worked for Jim Meyer made that call, and Roger went and start making things disappear. This happen in August of 2000, matter of fact it was 8/18/2000. I seen how Dana and Matt went from dept to dept to get dirt on you that year. But they only looked at the paper did not bother to ask someone that was there what really happen, prior years I can't say what happen but that year I know what happen I was there and I know for a fact you did not give the go ahead to do the things that was done, you were glad t
